

Announcing the GlaxoSmithKline Australia and Asthma CRC PhD Scholars Program Travel Grants

Our global quest is to improve the quality of human life by enabling people to do more, feel better and live longer

To achieve our quest, GlaxoSmithKline invests up to \$35million each year in Australian research and development – ranking us in Australia's top 10 R&D companies.*

Travel grants for postgraduate research students

GlaxoSmithKline Australia (GSKA) in collaboration with the Asthma CRC is pleased to offer up to two CRC PhD scholars per year a grant of up to \$20,000 to work in a GSK laboratory overseas. These travel grants will provide support, for up to 6 months, and is intended to allow the PhD Scholar the opportunity to develop their skills in a commercial environment and be exposed to procedures and protocols within GSK.

The Scholar will already be the beneficiary of a research grant ("Current Award") from a non commercial source which represents the primary means of support for the Student/Post-doc and will not be employed by a competitive commercial organisation in the healthcare industry.

How to apply

For further information and application forms, please visit - www.gsk.com.au/crcasthma.

Please read the Terms of Reference and Fields of Application before applying.
